

## GPI POLICY - COVID-19 TRAVEL & QUARANTINE

### **Rational:**

The Government of Pitcairn Island partners (GPI) acted swiftly to close the island's border in March 2020, when the COVID-19 (C-19) pandemic spread around the world. GPI recognises that the pandemic will continue to impact Pitcairn's visitor economy, essential travel to and from the island and the secondary health care needs of its community. The border was re-opened on the 31<sup>st</sup> March 2022 and Pitcairn Island remains COVID-19 free.

### **Objective:**

The GPI COVID-19 Travel and Quarantine Policy sets out necessary, current and approved procedures for the effective reference and promulgation of Pitcairn's COVID-19 management protocols. This Policy is reviewed monthly please ensure your copy is current.

The MV Silver Supporter is the current GPI Passenger / Supply Vessel servicing both its cargo and passenger travel requirements.

### **Abbreviations:**

- GPI - Government of Pitcairn Island
- C-19 - Corona Virus
- PIO - The Pitcairn Island Office
- PoV - Proof of Vaccination (to be fully Covid-19 vaccinated) means a recognised vaccination certificate equivalent to that issued by the New Zealand Ministry of Health.
- PI MO - Pitcairn Island Medical Officer
- PCR - Nasopharyngeal Swab For C-19 Test
- ADMINISTERED RAT - Rapid Antigen Test administered by an independent qualified person. company or Clinic.

### **Masks**

There are currently no requirements to wear masks on Pitcairn Island. Wearing masks on Pitcairn is not mandatory. However, in situations where social distancing is not possible use is recommended, at visitor discretion.

## GPI POLICY - COVID-19 TRAVEL & QUARANTINE

We advise all those travelling to Pitcairn to exercise social distancing, and wearing of masks when in close proximity to others.

### **GPI Passenger/Supply Vessel - Travelling from Pitcairn Island to New Zealand**

- a) At the time of booking all passengers, reserving a berth on the GPI Passenger/Supply ship must email the PIO with their Proof of Vacation (PoV) against C-19.
- b) The NZ Immigration authorities currently require people arriving by ship to have undertaken a minimum of 7 days isolation/quarantine at sea whilst on board the ship on which they arrived in New Zealand.
- c) On arrival in NZ all GPI Charter passengers and crew are given a supervised RAT. Preliminary results are available at the time of testing.
- d) The Captain of the ship is formally notified in writing when test results are received for the crew and passengers
- e) Each passenger is provided with a Port Health Letter of Authorisation to Disembark the ship. The captain will inform passengers that they can disembark.
- f) Information about changes to NZ's Maritime Border controls and further comprehensive C-19 related information can be found at: [www.Covid19.govt.nz](http://www.Covid19.govt.nz)

### **GPI Passenger/Supply Vessel - Travelling from Pitcairn Island to French Polynesia**

- a) Regulations regarding testing on arrival are constantly changing. Current information can be found at <https://tahititourisme.com/en-us/covid-19/> The PI MO and PIO can assist on current regulations.

### **GPI Passenger/Supply Vessel – Travelling to Pitcairn Island from NZ**

- a) At the time of booking all passengers, reserving a berth on the GPI Passenger/Supply ship are to provide the PIO with their Proof of Vacation (PoV) against C-19.
- b) All persons are required to have either a PCR test within 72 hours prior to boarding the vessel, or an Administered RAT test within 24 hours prior to boarding the vessel.
- c) At the time of booking all passengers reserving a berth on the GPI Passenger/Supply ship are to be advised that Pitcairn is COVID free and referred to this policy.

## GPI POLICY - COVID-19 TRAVEL & QUARANTINE

- d) All PCR or RAT results must be forwarded to the Pitcairn Island Medical Officer and the Captain of the ship, via the PIO so a formal Notice of Medical Clearance can be issued before passengers are permitted to board the ship.

### **GPI Passenger/Supply Vessel – Travelling to Pitcairn Island from Mangareva**

- a) If arriving directly from Mangareva the PI MO will ensure that the Captain of the vessel has a designated person administer a RAT to all crew and passengers within 24 hours prior to disembarking at Pitcairn.
- b) It is the responsibility of the Captain to electronically provide the PI MO with RAT results.
- c) When crew and passengers are medically cleared the PI MO will convey this to the Chief Immigration Officer who will grant passengers permission to land.

Note: Passengers are not required to have an RAT or PCR test in Tahiti prior to boarding the flight to Mangareva or prior to boarding the ship.

### **GPI Passenger/Supply Vessel - Medical clearance and landing protocols for passengers arriving at Pitcairn**

- a) If arriving directly from NZ or Mangareva the PI MO will liaise with the ship for medical clearance. Once medically cleared the PI MO will convey this to the Chief Immigration Officer who will grant passengers permission to land.
- b) If arriving directly from Mangareva the Pitcairn Island Doctor will ensure that the Captain of the vessel has a designated person administer a RAT to all crew and passengers within 24 hours prior to disembarking at Pitcairn. It is the responsibility of the Captain to electronically provide the PI MO with RAT results. When crew and passengers are medically cleared the PI MO will convey this to the Chief Immigration Officer who will grant passengers permission to land.

### **Cruise Ships – Landing Passengers**

- a) The responsibility of the Captain of a visiting cruise ship is, prior to arrival, to electronically provide the PI MO with:

Date Policy last reviewed: 22<sup>nd</sup> June 2022

Date Policy due for next review: Monthly until further notice

## GPI POLICY - COVID-19 TRAVEL & QUARANTINE

It is the responsibility of the ships Doctor to provide, prior to arrival, the PI MO with PoV information for all passengers and crew, intending to land, in accordance to the ship's own C-19 management procedures. Proof of a negative RAT for all passengers and crew within 24 hours of intending to land at Pitcairn Island.

Note: POV information should show the passengers primary course of World Health Organisation, WHO, approved vaccinaton.

Proof of a negative Administered RAT test for all passengers and crew intending to land, within 24 hours before arrival at Pitcairn Island.

### **Cruise Ships – Boarding Procedures for Pitcairn Islanders**

- a) When requested, the PI MO will provide the ship's Doctor with electronic PoV information for all Pitcairn Islanders intending to board the ship.
- b) All visitors boarding must adhere to the ship's own C-19 management protocols and visitor requirements.
- c) All visitors boarding must carry a copy of their passport details and a hardcopy of their PoV information.
- d) All visitors boarding will:
  - Refrain from unnecessary physical contact with passengers and crew at all times.
  - Ensure reasonable social distancing from passengers and crew at all times Wear masks at all times.
  - Place hand sanitizer on their trading tables, if trading, and use it regularly through-out.

- a) It is the responsibility of Captain's of other visiting vessels, prior to arrival, to electronically provide the PI MO with:

PoV for all those on board.

Date Policy last reviewed: 22<sup>nd</sup> June 2022

Date Policy due for next review: Monthly until further notice

## GPI POLICY - COVID-19 TRAVEL & QUARANTINE

- b) The PI MO will Administrator a RAT at Bounty Bay Once medically cleared the PI MO will convey this to the Chief Immigration Officers who will formally grant passengers permission to land.

### **General Requirements**

- a) While overseas all Pitcairn Residents must carry their Pitcairn Island PoV certificate issued by the Pitcairn Medical Centre.
- b) While overseas all GPI Passenger/Supply vessel crew and passengers are encouraged to take all necessary precautions to avoid becoming infected with C-19
- c) All crew working on a GPI Passenger/Supply vessel must be fully vaccinated against Covid-19.

### **Proof of Vaccination**

- a) All persons landing on Pitcairn are required to carry PoV.
- b) The above PoV does not apply to minors who do not qualify for vaccination.

### **Risk management for suspected C-19 illness on-board the GPI Passenger/Supply Ship**

- a) If any passenger or crew member becomes unwell with possible C-19 virus symptoms whilst travelling on the GPI Passenger/Supply ship, the ship will not land passengers at Pitcairn until medical advice has been sought, initially from the PI MO. The severity of illness and location of the ship, will determine the appropriate destination, including the options to take them directly to New Zealand or Tahiti for medical treatment.

### **Risk management for suspected C-19 case on Pitcairn Island**

- a) The MO will strongly recommend isolation for any person who is either suspected or actually confirmed to have contracted C-19. The isolation location recommended by the MO will be on an individual case by case basis.
- b) If the MO suspects or confirms an individual on Pitcairn Island has contracted C-19 they are to immediately inform all households. The MO will not release details of who is infected.
