Pitcairn Islands Office Statement of Changes In Equity For The Year Ended 31 March 2016

	2017 \$NZ	2016 SNZ
Equity at the start of the year	2,533,389	1,417,355
Net Surplus/(Deficit)	(490,739)	1,116,034
Equity at the end of the year	2,042,650	2,533,389

Basis of Preparation

Pitcairn Islands Office is an entity which operates under the British Foreign and Commonwealth Office's Colonial Regulations (Part II) Chapter 8 and the Diplomatic Service Procedures (Vol 8). The financial statements of Pitcairn Islands Office have been prepared in accordance with the New Zealand Financial Reporting Act 2013.

The entity provides administrative services to Pitcairn, Henderson, Ducie and Oeno Islands.

The financial statements have been prepared on a historical cost basis. The financial statements are presented in New Zealand dollars.

Statement of Compliance

The financial statements of Pitcairn Islands Office have been prepared in accordance with Generally Accepted Accounting Practices in New Zealand, (NZ GAAP) and comply with the New Zealand equivalents to International Financial Reporting Standards (NZ IFRS) under the Reduced Disclosure Regime (RDR).

Specific Accounting Policies

The following particular accounting policies have been applied.

Revenue

Stamp sales revenue and investment income is accounted for on an accrual basis and is advised by the various agencies responsible.

All income is remitted back to the Auckland office for banking, except that advised by the Crown Agents who invest the funds on the Administration's behalf and only make remittances to Auckland on request.

Funding received from the UK Government's Department for International Development (DIFD) is accounted for in the period to which the funding relates. Funding received in advance of the period to which it relates is held in the Statement of Financial Position as Income in Advance.

Stamp Costs

Stamp costs are recognised in the period in which they are incurred.

Accounts Receivable

Accounts Receivable are stated at expected realisable value.

Stamp Stocks

Unsold stamp stocks are considered to have no value.

Property, Plant & Equipment

All items of property, plant and equipment are recorded on the historical cost basis, less accumulated depreciation and impairment losses. All items of property, plant and equipment are depreciated on a straight line basis at rates which will write off their cost less estimated residual value over their expected useful life.

The carrying values of equipment is reviewed for impairment, either annually or when events or changes in circumstances indicate the carrying value may not be recoverable (whichever is earlier). If any such indication exists and where the carrying values exceed the estimated recoverable amount, the assets are written down to their recoverable amounts. The recoverable amount is the net selling price. An item of property, plant and equipment is derecognised on disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising from derecognition of the asset (calculated as the difference between net disposal proceeds and the carrying amount of the item) is included in the Statement of Comprehensive Income in the year the item is derecognised.

Depreciation rates applied to Computer Equipment are 33%SL and Office Equipment 10%SL

At each reporting date, the entity assesses whether there is any indication that an asset may be impaired. Where an indicator of impairment exists, the entity makes a formal estimate of the recoverable amount. Where the carrying amount of an asset exceeds its recoverable amount the asset is considered impaired and is written down to its recoverable amount. Recoverable amount is the higher of an assets fair value less costs to sell and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets of groups of assets.

Property, Plant & Equipment on Pitcairn Island

Property, plant & equipment purchases paid for by the Administration and transferred to Pitcairn Island are not capitalised because they have little or no realisable value. Accordingly, such assets are recognised as an expense in the Statement of Comprehensive Income.

Capital Projects

The entity receives funding from DFID for certain capital projects undertaken on Pitcairn Island. This funding is paid to contractors and suppliers on behalf of DFID. Any project funds received which remain unused at balance date are included on the Statement of Financial Position until such time as the are expended on the project or the project is closed.

Foreign Exchange

Both the functional and presentation currencies of Pitcairn Islands Office are New Zealand dollars. Transactions denominated in foreign currencies are translated into New Zealand dollars at the exchange rate in effect at the date of the transaction.

Stamp Sales, which are made on behalf of the Pitcairn Islands Office by the various stamp agencies responsible are converted using a fixed exchange rate as struck by agreement with each agency.

The foreign exchange gains and losses are recognised in the Statement of Profit or Loss and Other Comprehensive Income.

Monetary items receivable or payable in foreign currencies are translated into New Zealand dollars at balance date at the closing rate. Exchange differences are recognised in the Statement of Comprehensive Income.

GST Policy

No GST is paid on goods shipped to Pitcairn Island as these are export items and such are zero rated for GST purposes.

These Financial Statements have been prepared on a GST inclusive basis as Pitcairn Islands Office is not registered for GST.

Cash & Cash Equivalents

Cash and cash equivalents in the Statement of Financial Position comprise cash at bank and in hand and short term deposits with an original maturity of three months or less.

Inventories

Inventories comprise products held in the Pitcairn Islands store and are valued at the lower of cost and net realisable value. Cost is calculated on the first in first out basis.

Net realisable value is the estimated selling price in the ordinary course of business, less costs necessary to make the sale.

Trade & Other Receivables

Trade receivables have terms negotiated with island residents specific to each individual situation. They are recognised and carried at original invoice amount less an allowance for any uncollectible amounts. An estimate for doubtful debts is made when collection of the full amount is no longer probable. Bad debts are written off when identified.

Trade & Other Payables

Trade & Other Payables are stated at cost.

Income Tax

The entity is not a New Zealand registered company or legal entity. It forms part of the British High Commission and accordingly is not subject to income tax.

Home Loan Scheme

Pitcairn Islands Office provides loans to island residents for the construction of private homes. These loans have terms of repayment agreed with each individual resident and are interest free until the last four years of the loan period, when they incur interest at New Zealand OCR plus a 3%.

Comparative Figures

Comparative Figures included in the financial statements relate to the financial year ended 31 March 2016. Where necessary these figures have been reclassified on a basis consistent with current year disclosures.

Changes in Accounting Policies

There have been no changes in accounting policies (2016 none).
